

JESSICA VILKHU

Product & Project Management

Raleigh, NC | 919-972-1917 | jessicavilkhu@gmail.com | linkedin.com/in/jessica-vilkhu | github.com/jessicav8

SUMMARY

Business graduate with four product and project management internships across B2B SaaS and enterprise technology. Experienced in product discovery, roadmap prioritization, cross-functional collaboration, KPI tracking, and using user and performance data to drive product improvements.

EXPERIENCE

Aventiv Technologies | Project Management Intern

Remote | 2025

- Partnered with product, finance, and engineering stakeholders to develop an End-of-Life (EOL) strategy for 6 legacy products, analyzing cost, usage, and performance data to identify cost reduction, licensing optimization, and revenue opportunities.
- Built multi-year demand forecasts for EVOTAB rollout by analyzing deployment and product usage data across 815,000+ tablets, identifying trends that informed capital allocation, procurement planning, and product roadmap sequencing.
- Built and maintained real-time project dashboards and records tracking JPay tablet migrations across facilities and states, giving leadership clear progress updates on adoption, risks, dependencies, and on-time delivery.

ServiceTrade | Product Management Intern

Raleigh, NC | 2024

- Owned SMART AI Comment and Transcribe features, reducing technicians' manual data entry time by 2+ hours per week.
- Analyzed user interaction data and feedback signals to evaluate model performance, driving improvements that increased AI accuracy by 35%.
- Analyzed demo funnel behavior and conversion data to identify drop-off points, partnering with design on a redesign that increased SDR lead conversions by 28%.
- Resolved UI/UX inconsistencies between iOS and Android by partnering with designers and developers to unify the customer experience across platforms.
- Organized GTM product roadmaps and backlog prioritization, aligning high-value initiatives with user insights, business goals, and OKRs across marketing, sales, and engineering.
- Mapped team workflows, standardized internal documentation, and improved process visibility in Miro, reducing information lookup time by 23% and strengthening cross-team knowledge sharing.

Red Hat | Project Management Intern

Durham, NC | 2023

- Managed project intake, requirements documentation, and stakeholder meetings for cross-functional initiatives, aligning scope, timelines, deliverables, and action items across teams.
- Led internal change communications for 1,500+ employees, developing monthly newsletters and presentations that increased adoption of new tools, standardized processes, and best practices.
- Standardized internal marketing file structures and workflows in SharePoint, reducing project turnaround time by 18% and improving cross-team collaboration.

Clarity | Product Intern

Remote | 2021 - 2022

- Improved brand awareness by 36% in 3 months by using campaign KPIs and performance data to optimize multi-channel content strategy and engagement.
- Conducted market research and competitive analysis of user and competitor data to identify trends and inform customer discovery and campaign strategy.

EDUCATION

Purdue University | B.S. in Business Administration | Magna Cum Laude | West Lafayette, IN | 2020 - 2024
